---

Pursuant to sections 3(b) and 3(d) of the Financial Transactions Reporting Act, 2018, the National Identified Risk Framework Coordinator has requested that the Insurance Commission of The Bahamas (“the Commission”) circulate the following Notice regarding the Public Statements issued by the Financial Action Task Force on February 21, 2020 and October 23, 2020, in relation to Iran and the Democratic People’s Republic of Korea which have been identified as high risk jurisdictions with strategic deficiencies.

High-risk jurisdictions have significant strategic deficiencies in their regimes to counter money laundering, terrorist financing, and financing of proliferation. In this regard, Licensees are asked to apply enhanced due diligence, and counter measures to protect its financial system from the ongoing money laundering, terrorist financing, and proliferation financing (ML/TF/PF) risks emanating from these countries.

In so doing, Licensees should consider the ML/TF/PF risk associated with these jurisdictions when maintaining business relationships and conducting transactions with the listed jurisdictions including individuals, companies, financial institutions, and those acting on their behalf. In that regard, when conducting their risk analysis, Licensees should refer to the information on these jurisdictions which can be found at any of the following links listed below:
